Railway Made Defendant.

The Baltimore and Ohio Railroad Company was made defendant in a suit vesterday for \$5,000 by H. P. Pillsbury, as damages for alleged personal injuries. It is stated by the plaintiff that on October 21 last there was standing on the tracks or rails of the defendant, on 1st street northeast, or on Delaware avenue near the intersection between G and H streets northeast, a certain train of freight cars owned by the defendant. It is explained that Pillsbury was instructed by the proper officers of the defendant to remove certain freight or merchandise from one cars. While at work removing the freight to a wagon, he says, the car was moved and jostled, and he was compelled to jump to the ground for safety. As a result, he declares, he was severely injured in his right ankle.

FATAL STABBING AFFRAY

JEALOUSY BELIEVED TO HAVE BEEN THE CAUSE.

Charles Washington, the Victim, Dies in Thirty Minutes After the Cutting-Inquest Tomorrow.

An inquest will be held tomorrow morning over the body of Charles Washington, olored, who was stabbed to death last night by York Nelson, also colored. The fatal affray occurred on 26th street northwest between I and K streets, and it is of Washington.

. It is alleged that Washington started the trouble, and Nelson claims he used his penknife in self defense. The wound inflicted was in the breast just above the heart, and the victim died in about thirty minutes after he reached the Emergency Hospital. Nelson made no effort to escape, declaring he believed he had done what he had a right to do under the circumstances.

York Nelson, who is known to the police as a quiet and inoffensive man, has for some time living in Green's court, occupying the house with a colored woman named Annie Green. Last night he and the woman visited an oyster saloon on 26th street, kept by John Adams, and about 8 o'clock started from the place to go home. Just outside the door Charles Washington stood where he was protected from the When Nelson suggested that Annie accompany him home she said something about waiting for the rain to stop.

Washington Interferes.

Then it was that Washington had something to say. He told the woman she did not have to go out in the rain unless she so desired, evidently meaning he would remain and accompany her later. The woman's companion said he wanted no outside interference, and Washington told him he could attend to his own affairs. Washington, who was known as a fighter, then proceeded to settle the difference in a pugilistic way. It is said that Nelson, who was opposed to such a manner of adjusttrouble, was unable to cope his assailant, and when he had been thrown against a fence he took a small penknife from his pocket and struck Washington. blade entered the man's breast, stated, and the wounded man turned and started back towards the oyster saloon. He had gone but a few feet when he fell forward on his face.

A crowd soon collected on the sidewalk and the dying man was cared for until he could be removed to the hospital. Nelson went home and was changing his clothes, intending to surrender to the police, he said, when Policeman Gover called and arrested him. Drs. Vaughan, Bragonier, Stewart and Biscoe took charge of the wounded man when he reached the hos-pital, but were unsuccessful in their effort

to stop the hemorrhage. Washington, the victim of the tragedy, had a police record. He had been arrested a number of times for disorderly conduct and assault, having on one occasion, it is stated, assaulted John Adams, the keeper of the oyster saloon where the trouble started last night. Coroner Nevitt viewed the body last night

and directed the police to have the witnesses at the inquest tomorrow morning. About two years ago a murder was com-mitted on 26th street only a few feet from where last night's tragedy occurred. What you pay for extracts is important.

Mr. Benton Was Mistaken.

To the Editor of The Evening Star:

A curious old pamphlet in my possession bears out the statement made in The Star by "An Old Citizen of Washington" that Richard Lawrence was tried for the assault made by him upon President Jackson at the Capitol on the 30th of January, 1835. It also shows that Thomas H. Benton was mistaken in his account of the affair in the first volume of "The Thirty Years' View" when he said, as quoted in the later communication of J. H. B. in The Star, that "the wretched victim of a dreadful delusion was afterward treated as insane and never brought to trial." It should be borne in mind, however, that Benton wrote this narrative some eighteen years after the event which he describes occurred. According to the anonymous author of the pamphlet, who styles himself "A Wash-ington Reporter," the trial of Lawrence was begun in the Circuit Court of the Dis-trict April 11, 1835, and apparently was finished at one sitting. Chief Justice Cranch presided, with Judges Morsell and Thurston. The District Attorney, F. S. Key, appeared for the prosecution and W. L. Brent and J. F. Brent for the prisoner. A jury was selected and then follows what is eviwas selected and then follows what is evidently either a long-hand report of the trial or an abridgment of shorthand notes. Af-ter hearing the evidence the jury rendered a verdict which is reported as follows: "We find him not guilty, he having been under the influence of insanity at the time he committed the act."

A rough wood cut of Lawrence appears

on the title page and a full-page represen-tation of the shooting is inserted.

Bicycle Rider Hurt. A bicycle ridden by George Nixon, colored, sixteen years old, collided with a street car near 6th street and Pennsylvania avenue northwest about 5 o'clock yesterday afternoon. Nixon was severely injured, and the police sent him to the Emergency Hospital, where he was given treatment.

NEW SYSTEM OF RATING

TEACHERS TO BE GRADED ACCORD-ING TO MERIT.

Plan Adopted by Board of Education -Reopening of Night Schools

Under Consideration. Several important announcements were made as a result of last night's deliberations of the board of education. One was

the favorable consideration of a new system of rating of teachers, according to merit. A resolution was offered which directed the superintendent "to cause to be prepared a complete list of teachers in the graded schools, arranged by grades and in order of merit. The order of merit shall be established by monthly efficiency reports, rendered by the several supervising principals not later than the 5th day of each month, except the months of August and September. These reports, which are to be consolidated by the superintendent, shall rate teachers as excellent, good, fair, or poor. In making promotions the board shall select the teacher whose standing is higher than any other teacher of the same grade; should there be two or more teachers of equal merit the length of service shall govern the promotion."

Under the rules the resolution was referred to the committee on rules. It will undoubtedly be adopted at the next meet-

Plans for the reopening of the Night High School were announced as follows: "The Night High School will reopen on Monday evening, October 7, at the Business High School. It will have the same general organization as last year, giving instruction in the business branches to pupils who have had an equivalent of the first eight grades of the day schools. It is not, however, necessary that pupils should have attended the day schools in order to enter the Night High School.
"The school is intended to give practical

Views of Prof. Mason Regarding Its Population. Prof. Otis T. Mason, curator of anthro-

Prof. Mason has devoted considerable time to the study of the Philippine races since 1898 and in his interview said: "There are a great many tribes and races

in the Philippines, but from the standpoint of politics the Tagals and Visavas are alone worthy of consideration. Both tribes are majority of the inhabitants of the Philippine archipelago. They are the dominant and ruling race, the Tagals being indigenous to Luzon, while the Vizsayas form the great body of the population of Samar, Negros and Cebu.
"With the other tribes our government

has experienced very little trouble, for by reason of the fact that they are either Negritos (small, black and woolly-haired) or of mixed Arab, Hindoo, Malay, Negrito and Singalese stock, like the Morros of little, if any, conception of government and would as soon be under one set of rulers as another so long as their personal comfort nd idleness are not interfered with.
"The dominant tribes of the Malay race

are, however, very different. They realize that, so far as their personal well-being is concerned, they would be as well off under American rule as they would be under a government of their own-perhaps more so. But it must be borne in mind that they have the same feelings and mental quali ties as Germans or the English. THE OLDEST INHABITANTS.

Proceedings of the Regular Meeting Held Last Evening. The regular meeting of the Oldest Inhab itants' Association was held last evening,

Mr. Smith Thompson presiding and Mr. Benj. W. Reiss serving as secretary pro tem. Dr. J. T. Howard, the corresponding secretary, reported the death of Mr. Chas. King, September 11, and a memorial card was ordered to be sent to the family. Messrs, W. G. Gallant and W. A. Barnes

were elected members.

Mr. Beron referred to the want of courtesy usually accorded the association by the authorities, stating that in the Memorial bridge project the members had not been consulted. He said that the District of Columbia had been dismembered and should be no union by bridge with the state of Virginia until the District is restored to its former proportions. He presented a pa-per he had addressed to senators and representatives asking that the bill be de feated. His paper was placed on file. Mr. J. Madison Cutts said that while the nembership was not a drinking class, it

had come down to us that in the early days there was some drinking, and it would be interesting to enumerate the taverns was such a list in the hands of the chronicker, and called for its reading.

That official remarked that he had made

such a list from the records, and the population eighty years ago having been but 10,000 or 12,000, an idea could be formed of the drinking habits of the people. This list he would premise, was doubtless not per-fect, but he believed that it was nearly a complete one. In it were included the hotels, of which there were the Indian Queen, Jesse Brown's, now the Metropolitan; the Mansion Strothers, at Pennsylvania avenue and 14th street; Alex. Sanford's Washington Hotel, Pennsylvania avenue between 14th and 15th streets; O'Neale's Franklin House, 21st and I streets; Queen's, 1st street between A and B streets southeast; Shakespeare Hotel, Gutcherlich's, adjoining the American Theater, on Louisiana avenue between 4½ and 6th streets; City Hotel Rumpf's, Pennsylvania avenue between 6th and 7th streets; Fountain Inn, David Appler, proprietor, Pennsylvania avenue and 12th street.

The taverns were required to have accommodations for man and horse, and were better provided than are the present ones in having, in some instances, extensive stabling, and the locations at the present day appear to be in strange neighborhoods. The location was governed by the law of supply and demand. For instance, east of executive offices there was an ample number, as follows: Simeon Bassett, south side of G near 15th street; James Dougherty, Wm. Dowling, John Kennedy and Ge-Miller, on F street between 13th and 14th streets; Patrick Dulany, 13th street low F street; James Torrence, 15th street opposite the treasury.

POLICE CHIEF'S SUGGESTION.

Additional Powers and Higher Rank for Harbormaster. Major Richard Sylvester, the superinendent of police, has recommended to the District Commissioners that a clause be inserted in the next District appropriation bill conferring upon the harbormaster, John R. Sutton, the rank and title of captain in the police department, and placing the po-lice supervision of the harbor under the charge of the major and superintendent of police. The Commissioners are understood to favor the proposition. Heretofore the harbormaster's office has been treated as a separate department, and the harbormas-

Major Sylvester also renews the request that the harbor boat be provided with a night crew. He says its service is often required at night, but there is no force at the disposal of the harbormaster. The esti-mates for the office, not including coal, re-pairs, etc., now paid by the Commissioners will be included in the police department estimates and are as follows:

er has had no actual rank as a police offi-

One captain, also harbormaster, \$1,800; two sergeants, who shall be licensed pilots, one for day and one for night work, at \$1,080 each per annum, \$2,160; two engineers at \$900 each per annum, \$1.800; two firemen at \$480 each per annum, \$960; one janitor, \$480; one desk sergeant, \$1.080. This arrangement, with a sufficient detail of privates in force, would provide a day and night crew for the boat, to perform twelve hours' service each.

MEMORIAL TRIBUTE.

Expression of Lutheran Ministers on Assassination of President. At a meeting of the Lutheran Ministerial

Association of Washington held September 30, the first meeting since the terrible tragedy which has brought sorrow to all the people and called forth the sympathy of the civilized world, resolutions were adopted placing upon record the highest estimate of the able statesmanship, unswerving patriotism and excellent Christlan character of the late President, William McKinley, designating him as the pattern Christian ruler among the rulers of earth. Sympathy was expressed for the wife of the late President, the two together having given to the world an ideal family life, full of the tenderest love and

Detestation of anarchy, which was described as utterly conscienceless and god-less, destructive of all organized society, was also expressed, and the enactment and enforcement of law was regarded as the proper remedy for anarchistic conditions. President Roosevelt was commended as a man of pronounced faith in God, whose whole public career gives assurance of able administration and a conscientious purpose to do right, as God gives him to see the right.

to a ..ew Field. Mr. J. G. McCullough, chief clerk in the general passenger department of the Southern railway, has just been appointed northwestern passenger agent of the same company, with headquarters in Chicago.

Last evening the employes in Mr. McCullough's office gave him an agreeable surprise, presenting him with an elegant gold watch and chain as a testimonial of their good will. Mr. A. P. Johnson, assistant chief clerk, made the presentation speech in eloquent and well-chosen words. So complete was the surprise for Mr. McCullough that he was unable for some minutes to make a reply. Mr. McCullough will go to his new work

Worship to Be Reopened Sunday Next.

The Church of the Advent, located at the corner of 2d and U streets, Le Droit Park. which has been closed for several weeks for repairs, will be reopened for divine service Sunday morning next. The edifice, both outside and inside, has been greatly NATIONAL. TONIGHT AT 8 improved the painting freecoing and decoimproved, the painting, frescoing and decorating being in excellent taste and artistically and admirably executed. The house of worship was erected in 1893.

It was, in the estimation of the projectors, called for to fill a religious want in the part of the city where it is located. Difficulties soon arose, chiefly from the removal from the park of several working members of the church. These difficulties however, were met by the incoming population of the park and by the indefatigable exertions and enthusiasm of the members of the Ladies' Aid Society, aided by the earnestness and zeal of their popular pastor, Rev. Edward Marshall Mott. The original debt on this church has been fully paid, and the expense incurred for improvements to the edifice will also, it is
